

MD SHAHIDUL ISLAM

Full Stack Developer (PHP, Laravel, Java)

Dhaka, Bangladesh | +88 01928403651 | mdshahidulcse@gmail.com

GitHub: github.com/ShahidulMamun

PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience developing and maintaining web applications using PHP, Laravel, JavaScript, React, and MySQL. Experienced in building backend features, REST APIs, and third-party API integrations (Google, Facebook, Telegram). Built and maintained job portals, e-commerce platforms, micro-job marketplaces, an air ticket booking system, and a news portal, and contributed to educational applications. Currently strengthening my Java skills and learning Spring Boot, Java web application development, and web services.

KEY SKILLS

PHP, Laravel, Java, Spring Boot, JavaScript, React, MySQL, REST APIs, Google API, Facebook API, Telegram API, Git, GitHub, CI/CD, HTML, CSS, Bootstrap, cPanel

EXPERIENCE

Lab Assistant

June 2022 – Present

Ahsanullah University of Science and Technology — Dhaka, Bangladesh

Support laboratory sessions for **Digital Logic Design (DLD)** and **Digital System Design (DSD)** courses.

- Assist students with **debugging and troubleshooting circuit, wiring, breadboard, and power-related issues** during experiments.
- Test and verify **ICs and laboratory equipment** before experiments.
- Maintain equipment records and perform **maintenance of complex electronic equipment**.

Full Stack Developer (Remote)

Jan 2024 – Present

SMITSOFT — Dhaka, Bangladesh

- Led backend and full-stack development across multiple Laravel-based platforms, including job portal, micro-task, and e-commerce products, news portal.
- Integrated third-party APIs (Facebook, Google) and payment gateways into production systems.

Web Developer (Remote)

May 2022 – Jan 2024

IT Soft Institute — Dhaka, Bangladesh

- Developed and maintained web applications using PHP/Laravel and JavaScript.
- Implemented backend logic, database structures, and API integrations.

Software Developer

Jun 2018 – Apr 2022

Debug BD — Dhaka, Bangladesh

- Built and maintained websites and web applications using PHP, Laravel, MySQL, and JavaScript.
- Designed and developed admin dashboards and web applications for clients.
- Worked on front-end design and page content for multiple web projects.

Web Design & Developer Intern

Jan 2018 – Jun 2018

Debug BD — Dhaka, Bangladesh

- Assisted with front-end page design and content implementation, building web applications.

EDUCATION

B.Sc. in Computer Science and Engineering (CSE) Bangladesh University (BU)	2017
Higher Secondary Certificate (HSC), Science Govt. Bangla College	2013
Secondary School Certificate (SSC), Science Ichapur Shere-E-Bangla High School	2011

KEY PROJECTS

EasyChat — Multi-Platform Business Messaging Tool (in progress)

Stack: Laravel, Blade Template Engine, MySQL, JavaScript, Bootstrap

Role: Full Stack Developer

Building a messaging dashboard where users can manage and reply to all their Facebook, Telegram, and WhatsApp business page messages from a single inbox, using official social media APIs for message sync and delivery, with AI-powered automatic replies based on incoming message content.

Job Portal Web Application — livejobsbd.com

Stack: Laravel, React, MySQL, JavaScript, Bootstrap, HTML, CSS Role: Team Lead

Led development of a job portal platform, backend architecture, database design, and implementation.

Air ticket booking Web app — travatas.com

Stack: Laravel, MySQL, JavaScript, Bootstrap, HTML, CSS Role: Team Member

Design and development of the admin dashboard

E-commerce Website — ecom.smitsoft.com

Stack: Laravel, PHP, MySQL, JavaScript, Bootstrap, HTML, CSS Role: Team Lead

Led development of an e-commerce website, backend architecture, database design, and implementation.

Micro Jobs Website — onesteptask.com

Stack: Laravel, MySQL, JavaScript, Bootstrap, HTML, CSS Role: Team Lead

Led development of a micro-jobs platform, overseeing backend architecture, database design, and implementation.

News Portal — doiniksomoy.com

Stack: Laravel, MySQL, JS, YouTube API, Bootstrap, HTML, CSS

Role: Full-Stack Developer

Designed and built a Laravel-based news portal from scratch, including a scalable database architecture comparable to major Bangladeshi news portals, admin/staff authentication with a separate guard, and a modern, mobile-responsive homepage with YouTube video integration.

SmitSoft — smitsoft.com

Stack: Laravel, MySQL, JavaScript, Bootstrap, HTML, CSS

Role: Full Stack Developer

Company website for SmitSoft, a software development company delivering custom web application platforms and IT related service to clients.

University Website — aust.edu

Stack: PHP, WordPress Role: Team Member

Contributed to page design and content upload.
